Touchstone Communities Names Leslie Campbell as New Chief Operating Officer

[San Antonio, Texas] – Touchstone Communities, a San Antonio based provider of skilled nursing and rehabilitation services, has hired Leslie Cunningham Campbell, PT, LNHA as their new Chief Operating Officer (COO). Campbell has dedicated more than 25 years of her life to the skilled nursing and rehabilitation industry, most recently as the COO of Diversicare, a public company based in Tennessee with operations in Texas. Campbell’s career has seen her as a Physical Therapist, Nursing Home Administrator, Director of Operations, Executive Vice President & COO. Her experience at all levels of care gives her valuable insight and is a driving force in her pursuit of service excellence.

“We brought Leslie on board to help take Touchstone to the next level,” indicated Bryon Sehlke, Touchstone’s President. “We have grown significantly over the last several years and have matured to the point where we were looking for someone of Leslie’s caliber. She was our number one candidate, and we are extremely excited she chose to bring her talents to Touchstone. Leslie’s drive to build high-performing teams and create a quality-focused, values-driven culture will take Touchstone Communities even further in our vision to be the dynamic network of healthcare services devoted to excellence with integrity.”

“I am honored and thrilled to be joining the Touchstone team,” said Campbell. “I look forward to working together in continuing the tradition of delivering excellent, compassionate care all while promoting advancement and innovation in establishing Touchstone as the premier provider of skilled nursing care throughout Texas.”

The 2019 McKnights Women of Distinction Honor recipient is a leader in the healthcare industry and has been a speaker in podcasts, events, and more. She has a proven track record of success in all facets of healthcare operations ranging from strategic planning to budgeting, team development to quality assurance, and everything in between.
